

Rantu Mondal

Full-Stack Developer

Khulna, Bangladesh | rantumondal06@gmail.com | +880 1316-034237

[Portfolio Website](#) | [GitHub](#) | [LinkedIn](#)

Career Objective

Driven MERN stack developer with hands-on experience in Next.js, passionate about crafting scalable, high-performance web applications. Eager to deepen expertise in both frontend and backend technologies while delivering innovative, user-centric solutions within collaborative team environments.

Skills

Front-End: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, Next.js

Back-End: Node.js, Express.js, MongoDB, Mongoose

Tools & Platforms: Git, GitHub, Firebase, JWT, RESTful APIs, Vercel, VPS, Windows, Ubuntu Linux, Kali Linux

Experience

MERN Stack Developer - Potato Solution

Worked on full-stack web development using the MERN stack, managing frontend, backend, VPS deployment, SEO, Next.js metadata, API integration, and website optimization independently.

Projects

1. [CareHive](#)

[Client Code](#) | [Server Code](#)

Led a team to develop a full-featured digital health ecosystem, integrating health tracking, doctor consultations, appointment booking, and fitness programs into a seamless platform.

- Built an AI-powered health dashboard with tracking, a chatbot, and automated analytics.
- Secure messaging, eHealth management, and real-time notifications for appointments and updates.
- Integrated subscription options, theme toggle, and donation features to boost engagement.
- Implemented emergency SOS, a hospital directory, and interactive doctor-patient tools.

Technologies: Next.js, React.js, Node.js, Tailwind CSS, JavaScript, Firebase, MongoDB, Express.js

2. [BanglaCo Travel Agency Website](#)

[Client Code](#) | [Server Code](#)

Developed a modern and responsive travel agency platform while working at Potato Solution, designed to simplify tour booking, visa assistance, and travel management for users.

- Built dynamic tour package pages with detailed country and destination information
- Implemented visa assistance, currency conversion, and travel-related service features
- Created responsive UI/UX with interactive sections, filters, and smooth navigation
- Added authentication, inquiry/contact system, and package management functionalities

Technologies: Next.js, React.js, Tailwind CSS, JavaScript, Node.js, Express.js, MongoDB, Firebase Authentication

3. [Soulmate - Matrimony Website](#)

[Client Code](#) | [Server Code](#)

A matchmaking platform where users can explore, favorite, and request contact info of other profiles.

- Create and manage biodata with admin approval
- Premium request system to view contact info
- Add to favorites and view similar profiles

Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase, JWT, Stripe
